

Neutrakon®
Activated carbon pre-filter for oil boilers

Mommertz GmbH - Article-No.: 096230

Data Sheet 11-300-200

Reduces oil residues in condensates deriving from oil condensing boilers

Fuel	oil
Mating dimensions	DN20/DN40
Installation dimensions in mm	L DN 40 381 / DN20 507 – W150 – H140
Diameter	Ø120mm
Neutralizing agent	Neutrakon® 1,25 kg activated carbon
Max. temperature	60°C
Max. Intake	60%
Functional control	At least 1 per year
pH – Value condensate	> pH 2,6
Weight incl. packaging	2,5 kg
HS Code	8421 2100
Country of Origin	European Union (Germany)
