NEUTRAKON PRO SNP

NEUTRAKON PRO SNP – STAINLESS NEUTRA PUMP

EXCEPTIONAL CORROSION RESISTANCE

- Excellent Corrosion Resistance
- For systems that produce aggressive condensate
- Ensuring that the pump remains permanently intact and functional, unlike plastic or standard metal housings.
- Stainless steel, for example, protects against chemical degradation, extending the pump's lifespan in harsh environments.

HIGH DURABILITY FOR HARSH CONDITIONS

- The stainless steel housing increases the pump's resistance to moisture and physical stress.
- Ideal for industrial environments, commercial HVAC systems, or outdoor installations
- The robust construction reduces the risk of cracks, leaks, or structural damage
- Reliable operation even in demanding applications

AESTHETIC APPEAL AND PROFESSIONAL FINISH

- Stainless steel housings offer a sleek, polished appearance that enhances the appearance of installations in upscale residential and commercial spaces.
- Unlike plastic or painted metal, stainless steel is resistant to fading, staining, and discoloration, thus maintaining its professional appearance over time.

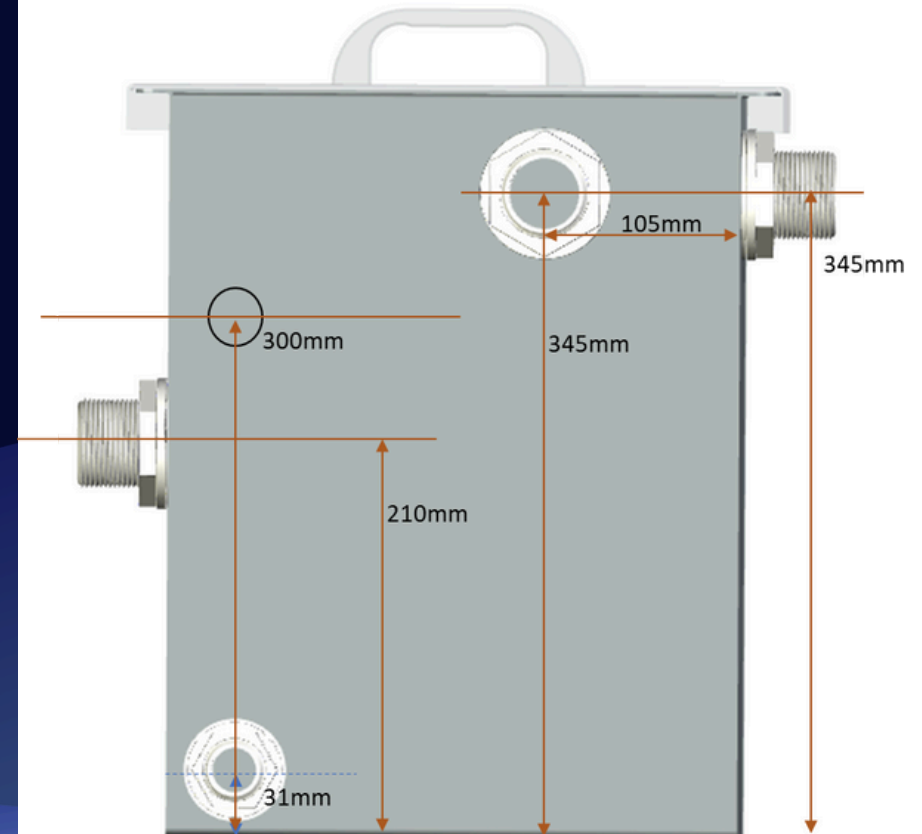

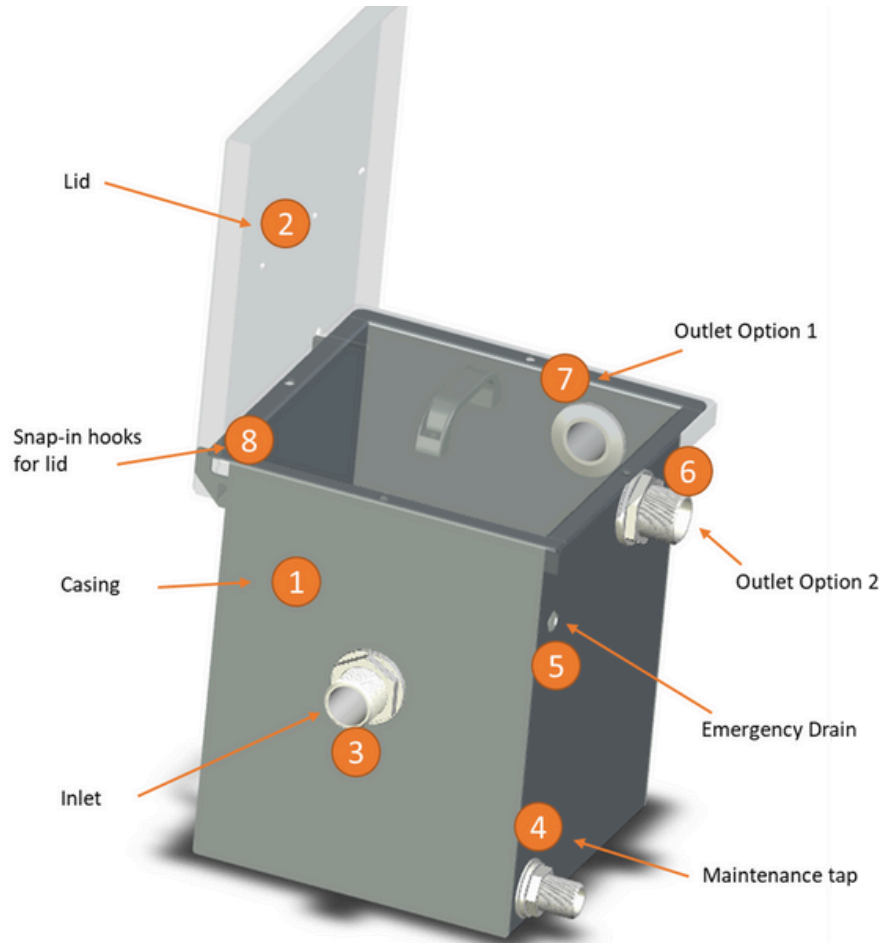

EASY MAINTENANCE AND INSTALLATION

- Easy installation and maintenance
- The housing's durability ensures that external components remain intact during maintenance, while its wear resistance minimizes the need for frequent cleaning or repairs.

Condensate pump

TECHNICAL DATA

Suited for	Condensates from CHP's, chimneys
Weight Housing	10kg
Weight pump system	5kg
Cable length	10m
Rated current	1,6A
Voltage/Frequency	1x 230V / 50Hz
Protection	IP68
Max. Lift	6m
Maximum flow rate	8,5m ³ /h
Motor protection temperature switch	120°C
Dimensions (length, width, heigth)	350mm; 350mm, 400mm
Inlet	1 ½"
Inlet height	210mm
Membrane bushing at outlet	5/4"
Outlet	1 ½"
Outlet height (Option 1 and 2)	345mm
Heigth emergency drain	300mm
Emergency drain	½" outer thread
Maintenance valve	1" outer thread
Article number	098050
Power supply	230V
Protection	IP67
Cable	1m (heated)
Range Thermostat	On at +3°C; off at +13°C
Article number	098051
